Wright Express (WEX ®) Full Acquiring Program

Streamlined WEX fleet card processing for faster funding and single-source convenience.

Petroleum retailers can grow their business by accepting Wright Express (WEX) fleet cards, which are used by commercial and government fleets to purchase fuel and maintenance service for approximately 4.7 million vehicles. With First Data's Wright Express Full Acquiring Program, there's no long wait for WEX paperwork or approvals to board the account. The program lets petroleum retailers process their WEX transactions entirely through First Data, along with their other transactions. Retailers receive funding for WEX transactions quickly—with their bankcard funding.

Features

- The full range of Wright Express merchant services, including access to the 4.7 million vehicles that use WEX cards and inclusion in the Wright Express National Merchant Directory
- Streamlined account boarding, so retailers can begin accepting WEX cards sooner
- First Data's full range of payment acceptance options: all major credit and debit cards (PIN and signature), gift cards, prepaid cards and checks

Benefits

- Incremental revenue from fleet cardholders who see WEX decals at your location
- Faster funding and easier reconciliation—WEX transactions are funded alongside bankcard transactions
- Single point of contact for all payment processing services, including a single statement from First Data for all payments, broken out by card type
- Advanced fraud protection, plus complete compliance with the PCI Data Security Standard
- A competitive, money-saving price structure for all card transactions
- Free online account management, including access to ClientLine® online reporting
- Easy implementation and training, plus 24/7/365 technical support
